

## Dynamo LED Torch

### Specifications:

- Ultra bright luminance LED light.
- Life cycle of LED is more than 200,000 hours
- Dynamo powered by wind up handle.
- Nominal 120 cycles per minute rotation can reach 80% battery capacity.
- Single LED mode  $\geq$  30 minute. Three LED mode  $\geq$  25 minute
- Three modes of operation: 1 Center LED is on. 2 All LEDs are on. 3 All off.
- Rechargeable LIR2032 Lithium battery (3.6V / 35mA)
- Rotation of 120 cycles per minute provides less than 1W output power.
- In proper use, lithium battery can be recharged more than 500 times.
- One use per week provides more than 10 years operation.
- Emergency assistant during electric power loss, camping, etc.
- Weight: 175g (with battery).
- Dimensions: 138(L) x 54(H) x 48(W) mm.
