

## Gamma Seal Lid

**Twist on ... Twist off!**

- **Heavy-duty threaded lid which is easy to reseal**
- **Fits most 3.5 to 7 gallon pails with a 12" diameter**
- **Recycle existing pails**

### Overview

Gamma Seal Lids may be used to store dry foods, tools, parts, boating, camping, & fishing equipment, feeds & grains, dog food and anything else that will fit in your bucket. The Gamma Seal Lid transforms most 12" plastic pails into leakproof, airtight storage containers. There are two parts: a ring with an o-ring seal that permanently snaps to the top of your bucket and a spin on/off threaded lid with its own o-ring seal. They come in five colours: black, blue, red, white, and yellow.

### Instructions:

- Unscrew the lid A from the adapter B.
- Install the adapter B to the top rim of your 12" diameter pail C. (A mallet may be required.)
- Spin the lid A onto the adapter B. (Right to close, left to open.)
